

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

SEB Global Fund – a sub-fund of SEB Fund 1

Class C (EUR) (LU0957649758)

Management Company: SEB Asset Management S.A., part of the SEB Group.

Objectives and Investment Policy

SEB Global Fund aims to create long-term capital growth at well-balanced level of risk. We make active investment decisions, based on analysis and selection, to invest globally in companies in a range of countries and industries with the exception of emerging markets. We use an objective and disciplined investment process to identify what we regard as high quality companies that are favourably valued and have stable share prices. This gives the fund a defensive character. Consequently, it is more likely that the fund may outperform its benchmark in gently rising and falling markets than in sharply rising markets. Diversification and risk awareness are important elements in portfolio construction. We compare the fund's return to the MSCI World Net Return Index, a reinvesting global equity index.

The main categories of financial instruments are equities and equity related instruments.

Derivatives such as futures may be used to achieve the fund's investment goals and make fund management more efficient. Derivatives are a type of financial instrument, the value of which is derived from underlying financial instruments.

SEB follows the UN Principles for Responsible Investments. The principles guide us in acting and investing responsibly, and promoting good business ethics and governance – at SEB and the companies in which we invest.

Generally, investors can buy or sell units of the fund on any bank business day in Luxembourg except 24 and 31 December. The fund is not distributing.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 year(s).

Risk and Reward Profile

The risk and reward indicator illustrates the relationship between risk and return for the fund. The higher the fund is positioned on this scale, the greater the possible reward, but also the greater risk of losing money. Category 1 does not mean that the investment is risk free.

The risk category is calculated using historical data or simulated historical performance when actual historical data is insufficient. Past performance may not be a reliable indicator of the fund's future risk and reward profile.

This fund is in category 5. This means that the risk for value changes in the fund is medium. This category may change over time.

Equity funds are generally subject to large fluctuations in value. The fund invests in countries across the world. This generally implies a lower risk compared to funds concentrated to a single geographic market.

The following risks are not fully reflected in the above classification but still influence the fund's value:

Counterparty risk - if a counterparty does not fulfill its obligations to the fund (e.g. not paying an agreed amount or not delivering securities as agreed).

Liquidity risk - some of the assets of the fund may become difficult to sell at a certain time and for a reasonable price.

Operational risk - the risk of loss resulting from e.g. system breakdowns, human errors or from external events.

Currency risk - the fund invests in securities that are issued in currencies other than the base currency of the fund. As a result the fund is subject to currency risk, which arises from changes in the exchange rates.

Charges

One-off charges taken before or after you invest

| | |
|---------------------|-------|
| Entry charge | 0.00% |
| Exit charge | 0.00% |

This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).

Charges taken from the fund over a year

| | |
|------------------------|-------|
| Ongoing charges | 1.81% |
|------------------------|-------|

Charges taken from the fund under certain specific conditions

| | |
|------------------------|-----|
| Performance fee | N/A |
|------------------------|-----|

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In some cases you might pay less - more information can be obtained from your financial adviser or distributor. In case of suspicion of market timing, up to 2.00% may be charged at the discretion of the Management Company. Switch transactions are free of charge.

The ongoing charges figure shown here is an estimate of the charges. Because the ongoing charges figure has varied substantially, this estimation shows the indicative charges figure likely to be charged to the fund. The fund's annual report for each financial year will include detail on the exact charges made. Performance fees and portfolio transaction costs are not included in the ongoing charges figure, except for portfolio transaction costs for entry/exit charges paid by the fund when buying or selling units in another fund.

More information on charges can be found in the section regarding costs in the fund's prospectus, available at www.sebgroup.lu.

Past Performance

The fund was launched in 1988. The unit class was launched in 2013. For the calculation of past performance all charges and fees are included, except any entry and exit charges you may have paid when buying or selling units of the fund. The past performance is calculated in EUR.

The performance of the fund is not tracking the index. The past performance of the fund is no guarantee for future performance.
